SUMMARY

Analyst at Goldman Sachs (contract) with proven ability to manage 100+ issue-resolution workflows weekly, ensuring accuracy and speed across global stakeholders. MBA with leadership experience in consulting projects and startup ecosystems. Recognized for ownership under pressure, stakeholder communication, and process-building. Now pivoting into SaaS Customer Success, bringing a track record of solving complex problems, driving adoption, and enabling client outcomes in high-pressure environments.

EXPERIENCE

Goldman Sachs – Asset & Wealth Management (India)

Investment Oversight Analyst (Contract) | May 2025 – Present

- Managed high-volume issue resolution across global private equity fund operations, handling 100+ classification and reconciliation workflows weekly with strict accuracy and turnaround requirements.
- Collaborated with cross-functional stakeholders (fund administrators, controllers, internal teams) to resolve escalations, mirroring customer success escalations in SaaS.
- Improved client satisfaction and efficiency by documenting processes and creating internal playbooks to onboard new analysts faster.
- Recognized by leadership for proactive ownership and commitment during high-pressure operational deadlines.
- Started and owned 3 workflows which are eliminating high value bottlenecks

Edgro Finance India

Finance & Operations Intern | 2022

- Conducted risk analysis and fraud detection to safeguard client portfolios, building strong attention to detail and customer-first problem-solving mindset.
- Delivered analytical insights that improved efficiency of client onboarding and portfolio reviews.

PROJECTS & LEADERSHIP

Entrepreneurship Cell – NIT Karnataka

- Led teams for flagship projects (Incub8, E-Summit '24), creating structured playbooks and processes that improved adoption and engagement from 200+ participants.
- Advised early-stage founders, helping them onboard and scale pilot customers.

Founding Member – BlueTick (Campus Startup)

- Designed and pitched business models for a B2B logistics startup, enhancing stakeholder onboarding and adoption strategy.

Consulting Project – New Mangalore Port

- Conducted stakeholder interviews and economic research to propose strategies that boosted tourism revenue, directly aligning with customer success practices of QBRs and adoption tracking.
